OCC in World Championship Surfing Meet

At this writing, the World Championship Surfing Meet is being held at Oceanside, California. The sponsoring city, San Diego, could provide everything but surf so the meet was moved up the coast to find surf. Reports have it that 5 to 6' surf has been consistent and so has the Hawaiian team. Member Keone Downing, who placed 5th overall at the last World Meet in Australia, placed first in his heat in the quarter finals on October 4th.
