

# Running Committee sets Goals for the year 1978

By Jerry Ober, Chairman

Jerry Ober, chairman for the 1978 Running Committee, says that his committee's '78 objectives are to provide services to the members of the Outrigger Canoe Club who run, no matter what the degree of involvement may be.

To that end, running mileage charts are kept in the men and women's locker rooms. Runners should record their distances in the record books and a committee member will enter it on the wall chart.

As it becomes available, information on local races will be posted on Club bulletin boards. Applications for the Kamehameha Kukini, 4.2 mile run from Oceania Restaurant (Aloha Tower) to the Club, are available at the front desk. Race Day is Saturday, June 10th.

Several months prior to the Honolulu Marathon, scheduled for early December, the committee will hold an open meeting for all prospective runners in order to get some idea of the total involvement of the Club.

As a note to runners, Ober suggests that for those who wish accurate information regarding distance running, the absolute best source is the Sunday Morning Marathon Clinics at the Band Stand in Kapiolani Park.

Besides Chairman Jerry Ober, the Running Committee members are Gay Austin, Kimo Austin, Tim Guard, Thad Ekstrand, and Mort Mandel.
