

May Take More Land At Waikiki

Information has reached here from a reliable source to the effect that the War Department at Washington will condemn all the beach property running up as far as the stream on the Diamond Head side of the Outrigger Club.

If this story proves true, it will mean that the property on which the Seaside Hotel is situated will be taken by the government for military purposes, and the U. S. property will extend right up to the edge of the Moana hotel grounds. The authority for the story does not care to be quoted, but he is assured that the news is straight.

Major Winslow absolutely denies that he has plans contemplating the condemnation of any more land whatsoever.
