

# DANCE TO OPEN CANOE SEASON

---

The members of the Outrigger Club are getting ready for a very prosperous season. The ladies' annex building is completed and the grounds have been cleared up generally.

A proposal is on foot to have the opening of the season celebrated by a grand ball with illuminations on the lagoon during the dancing. Another very excellent suggestion is with regard to the grounds. It has been proposed that the club have an "Arbor" day and that all the members get together and plant trees and plants on the grounds, the which would add very greatly to the attractive and picturesque look of them.

The Outrigger Club is undoubtedly one local organization that should certainly not be allowed to languish. A live coterie of sportsmen is now in charge of the club, and there seems to be every outlook for a fine season this year. The ladies' annex is the finishing touch to make the club the attractive social and athletic institution it now is and should remain.
