

# Surfing Is To Be Summer Race

---

The Outrigger Club is making preparations for the opening of the season, and it is proposed to mark the event with a ball and illumination of the lagoon during the dancing. The ladies' annex building is completed and everything is now in good shape. Every afternoon parties of children, accompanied by a chaperone, are to be seen enjoying themselves in the surf. The last few days have been ideal for swimming, and the water is just right now.

The Outrigger Club is undoubtedly one institution that will be kept going in style. A fine lot of officials are in charge of the affairs of the club, and surf-boarding, etc., is going to boom this coming summer as never before. Even now a great number of would-be Freeths can be seen every morning and evening doing circus tricks on a surf-board, which is balanced on the crest of a huge breaker. Some of the youths are very expert at the game and the cries of astonishment from the new arrivals at the beach are as incense to the boys.
