

## OUTRIGGER CLUB DUES.

The directors of the Outrigger Club wish to have an explanation made with regard to the dues of members. Each member on joining the club pays \$5. This amount acts as initiation fee and also covers dues for the rest of that year. On the first day of every year another \$5 is due and payable.

Many members seem to think that their original payment of \$5 covers dues from the date of their joining until the same date the next year. For this reason it has been difficult to collect a large number of payments that are due.

The club is being well run and the grounds are in excellent shape but this cannot be done on nothing. It is hoped that this explanation will lead those who have not paid their \$5 for 1909 to do so as soon as possible.
