

FINE PROGRAM FRIDAY NIGHT

Moving Magician Bonine states that there will be a grand program for the Outrigger show at his theater on Friday night. He says that he has been laying aside the very best of his films and that the surfing pictures are something that will surprise everybody and keep people guessing as to how he managed to take them.

In addition to the moving pictures there will be several specialties. There is no mean amount of talent to be found in the membership of the Outrigger Club; this has been rustled up and all those who are clever have promised to put that same cleverness to good use.

The funds raised by this entertainment are to go towards building a new and decently large bathhouse for the club. It lacks this necessary building and lacks it very badly. It is to the interest of all kamaainas that such an excellent institution as the Outrigger Club, should not fall into decay for lack of a place where visitors from the mainland can be taken to their first lessons in surf-riding from a place where they can change in comfort.
