The plans for the chowder dance which the members of the Woman's Auxiliary of the Outrigger Club are to give on the club grounds Friday evening are progressing beautifully, and everything points to a most successful and delightful evening. Mrs. Swanzy, the president of the auxiliary, is at the head of the executive committee and has assigned all of her assistants to their positions, and the ladies are working vigorously. Each member of the Woman's Auxiliary and of the Outrigger Club has purchased a ticket and has taken charge of a certain number to sell. As the affair is given by the ladies to raise money, the members thought there was no better way of starting the ball rolling than by each buying at least one ticket. Tickets can be purchased from any member of the club and will be on sale at the entrance to the grounds on Friday evening. The ticket costs fifty cents and entitles the holder to admission to the grounds and a supper of chowder, rolls, cake and coffee. The only articles for sale will be candy, soda and lemonade. Twenty-five cents will be charged for the privilege of dancing. The supper will be served from 6:30 until 8 o'clock, when the dancing will start in the pavilion, over the lagoon. Music for the dancing will be furnished by a Hawaiian orchestra and during the supper there will probably be music on the lawn. The entrance to the club grounds is at the bridge between the club and the Moana, where a large string of lights will be placed for the benefit of the guests. Following are the ladies named on the different committees:

Executive Committee—Mrs. Francis M. Swanzy, Mrs. Corwin P. Rees, Mrs. J. H. Soper and Mrs. Edward I. Spalding.

Friday morning society turned out in large numbers at the different institutions of learning to help celebrate Arbor Day and to listen to the carefully-prepared programs. A committee of members of the Woman's Rivers and Harbors Congress had for several weeks lent their aid to the principals of the schools in perfecting arrangements for the day. At Mrs. Gunn's school on King street the children planted a hedge of aralia given by Gerrit Wilder. The exercises took place on the lawn under a large monkeypod tree. Here the children sang and recited and listened to a talk on conservation by Mrs. Francis Swanzy. At the Normal School, Mrs. Walter F. Frear spoke on "What I Can Do," and Mrs. Doremus Scudder on "Conservation." The students then planted a row of a dozen citrus trees. At Miss Needham's school on Emma street the eighth grade scholars were in charge and gave a most interesting program. A. F. Thayer spoke on "Gifford Pinchot." At the Kaahumanu school on Beretania avenue, Mrs. B. F. Dillingham gave a talk to the children, which was followed by a musical program prepared and given by the students themselves. President Gilmore of the College of Hawaii spoke before the High School students on "The Broader Phases of Conservation and Forestry." The faculty and students of the College of Hawaii journeyed out to the new home site in Manoa Valley and set out many trees, after which there was a picnic supper. Professor Bryan of the College of Hawaii delivered an address at Kalihi-waena. Although the Kaulani School students had already celebrated Arbor Day, they gave a conservation program
