

# Aquatic Sports Being Arranged

Now that A. H. F. has returned to Honolulu, the Outrigger Club and, in fact, all the unattached surfboard and canoe enthusiasts, are getting busy with their stunts. A. H. F. stands for Alexander Hume Ford, as everyone knows, and he is feeling just as much at home as he did a couple of years ago when he first tackled the surfboard act.

Outside of Freeth, there were no surfboard experts till Ford started the craze. Now all sizes and descriptions of boys can come flying in on their boards—on their feet or heads as they feel inclined. Girls also have mastered the art, but most of them are content with keeping their pedal extremities on the supporting board.

The Outrigger Club will soon be provided with a fine bathing house, and the members will then be able to dress in comfort and have plenty of room. Work will be started on the building in the near future, and the energetic Ford will be sure to be on hand to watch the "dirt fly."

By the time the Clark bunch of tourists arrive, the program of aquatic sports that is being arranged for their edification will be all made up, and the visitors will see some stunts that they have not seen in any of their travels so far.
