# SURFING STUNTS TO BE REPEATED

---

The Outrigger Club has completed its plans for the surfing stunts at Waikiki beach next Saturday afternoon, to be given for the pleasure of the tourists arriving that day per the Cleveland. A canoe race program will precede the surfing feature.

A feature of the day, aside from the water specialties, will be a luau for some of the visitors at the Outrigger Club. Arrangements for this are only partially under way.

It is also planned to erect a platform in the surf from which M. Bouvillain will take films for a moving picture reproduction of the races, etc.

Last time the tide refused to work properly and the program out at the beach was much of a failure. According to the man in charge of the tides, however, everything will be all right this time.
