ENTERTAINMENT COLUMBIA BOYS

The following circular is being sent out:

To the Ladies of Honolulu:

"When it was thought that the Columbia Park boys of San Francisco were to be in Honolulu but a single night a number of hospitable ladies generously offered their homes to entertain the boys. Now that conditions have changed and the whole company have been obliged to stay on Quarantine Island for two weeks it is believed that the ladies of Honolulu will be the more ready to extend a kindly greeting to these boys—especially that they have been shut off in a rather lonely place and at their own expense. It has not been thought wise to ask people to take them into their homes for a week, but to entertain them in tents at the Boys' Field.

"Of course here is no fund to cover their living expenses, though a committee has had sufficient confidence in Honolulu to pledge their support and have already secured tents and equipment.

"About \$250 will be needed to cover cost of board. In the raising of this sum we ask your aid. These boys have been most hospitably entertained throughout the Colonies and the first American town to which they return can hardly do less.

"Mrs. Harmon Hendrick has kindly consented to receive all funds contributed. She is acting in co-operation with a committee of arrangements. She would be glad to receive your contribution to this fund.

"Kindly telephone or address her at Wilder Avenue and Anapuni street.

"These boys will be out Thursday, February 17, and we must be ready for them.

"The Committee of Boys' Clubs of the Y. M. C. A."

Johnston, Niles, Little and McLoughlin the committee goes into a detailed comparison of the records of the four, taking them in pairs.

PREPARING FOR SURFING EVENTS

The big steel tripod, 24 feet high, from which motion pictures of the surfing contests tomorrow will be taken by M. Bonvillain—has been set up, and a platform has been set up on the reef opposite the Moana hotel from which pictures will be taken of the canoe and other races. The pictures to be taken will show the hotels and beach in the back ground, together with the crowds at the various resorts.

The annual meeting of the Outrigger Club will be held at the Commercial Club next Tuesday evening, at which reports will be read and officers chosen for the ensuing year. It is understood that the finances of the organization will be shown to be in good shape, a number of substantial contributions having been received to offset expenditures made and to be made. The

following is said to be the slate for new officers:

Trustees—J. P. Cooke, J. R. Galt, and Harry Macfarlane.

Regular officers: Judge Sanford B. Dole, president; Alexander Hume Ford first vice president; E. T. Simpson, second vice president; G. M. Tuttle, secretary; F. T. P. Waterhouse, treasurer; Ralph Lyon, auditor.

Captain of crews—Kenneth Brown.

House Committee—Alexander Hume Ford, Major W. H. Hart, Fred Lamb, C. D. Wright and Ed. Dekum.

The arrangement of officers is such that members from different parts of the city, or different schools will have representation. The army posts are represented by Major Hart.

RENEWED LIFE IN BOTH BOAT CLUBS

This promises to be a record year for boating events in Honolulu harbor and many people will be glad to hear it. Not since the spurt of the Healanis a decade ago have the prospects for water sports been so good as now, and it now seems certain that for the first time in years the Fourth of July and Regatta Day programs will be complete and the championship races revived.

A few days ago attention was called to the enthusiasm now existing in the Healanis Boat Club. Over there it is an easy trick to jam a hall for a meeting, or to get out more men than are needed for trial pulls or regular races. A year ago either would have been next to impossible. Now it is the Myrtles. Last night W. Lyle said:

"It is marvellous—this new spirit which has come over the members of the Myrtle Boat Club, and an even greater spurt has started up since the election this week. Before the election, there was some uncertainty about who was who, etc., but even at that things had begun to move; and now, with everything straightened out, this old town can look for aquatic sports such as have never been seen here before."

On Sunday morning will occur the lean and fat men's barge race of the Healanis Boat Club and crews of both clubs will be out. All are preparing earnestly for the regatta program soon to come off.

MAY HAVE RACES AT HALAWA HILL

Bill Chilton is working hard on his scheme of a hill climbing contest for motorcycles to take place during the spring or summer, and is receiving a great deal of encouragement from both riders and the public.

The one perplexing proposition in the way was that of a hill suitable for the contest. Of the hundreds of places available there was something lacking or overdone with each. The bill near Moanalua has been finally decided upon as the most suitable. There is a long stretch to the top, the road is good and the grade is just about as required.

There is now talk of one or more automobile events in connection with the program. This will be something new here, although a common stunt on the mainland. Several automobile men have signified a willingness to try it provided the inducement is sufficient to cover the expense.
