

AT THE OUTRIGGER CLUB.

The youngsters are hoping for a big surf on Saturday afternoon. In case there is a surf, the contest for the Clark cups will take place at Waikiki. There will be a cup for the best boy surfer, one for the best girl board rider, another for the youngster who can handle a small canoe in the big surf better than anyone else, and a cup for the man or boy who can best bring in a big canoe before the rollers.

There are many signs of activity at the Outrigger Club. A telephone has been installed, electric lights have been placed in the bathhouse, the ladies' lanai is completed, and Horomoto, the carpenter, has finished making a number of club surfboards and two dozen club paddles, all beautifully hand-carved with the "O" and paddle of the club. Work is now in progress on the restaurant, and the clubhouse will soon be started.
