

The evening before her departure Miss Josephine Pratt was made the motif for a delightful basket supper at the beach at Waikiki. The basket was amply filled with delicious dainties from the Alexander Young Hotel with fresh hot coffee served by the Moana. About eighteen were invited to this jolly little outing and after supper, moonlight surfing was indulged in.

The boys who acted as hosts on this occasion were Messrs. Foster, Larsen, Ted Cooper, Curtis Hustace, and Duke Power.

One of the most favored and feted girls on her departure on the Wilhelmina was Miss Josephine Pratt, the champion surf rider of Honolulu, who was the cynosure of all eyes, being heavily laden with leis. But the most beautiful lei of all worn by Miss Pratt was one presented her by the boys of the Outrigger Club. It was an artistic creation of which many a notable leaving our city would feel justly proud. This lei was made up of red and white carnations red and white being the colors of the club, and at intervals were attached small outrigger canoes, three golf cases and sticks, tennis raquets and balls and golf balls. At the end was tied a gold lined loving cup of heavy silver with an appropriate inscription, and showed to some extent the affection with which this charming athletic girl is held by her legion of friends and companions..
