

OUTRIGGER CLUB HAD TWO BIG MEETINGS

Entertainments Are Planned and Regattas Will Be Held— Social Features.

The entertainment and house committees of the Outrigger Club held meetings yesterday at the club grounds and at the residence of Allan Herbert, who is chairman of both committees.

The two committees have joined with the captain of the Outrigger Club to make one committee of the whole, and as such the plans for entertainments, regattas, and other aquatic events for 1911, at the club, will be mapped and carried out.

The members of the entertainment committee, not previously on the house committee, have been added by that body as an advisory committee to assist in planning and carrying out the events and entertainments for the year. A report will soon be placed before the directors.

Mr. Allan Herbert has almost completed the new bath house for the boys and the new locker room for the men.

Plans for extensive improvements of the grounds are being prepared, and it is expected that this will be the busiest year in every way that the Outrigger Club has ever known.
