

# YOUNGSTERS PLAN SOME GOOD STUNTS

---

The younger members of the Outrigger Club are looking forward to raising some money of their own to buy larger canoes and provide bath house extensions, and they believe they can do well at the game.

It is planned to have a big race meet in which the majority of events will be for the younger members of the club and with some additions now coming in to the membership they believe they can give a bona fide racing day which will long be remembered.

Surfing is being given much attention by these boys and many are becoming expert at the game, which is now booming more than at any time for many years.
