

Bill For Clean Waikiki Beach Ordered Tabled

Upon the recommendation of the finance committee, the house today tabled Representative Andrews' bill appropriating \$15,000 to divert the stream which now empties into the ocean between the Outrigger Club and the Moana hotel. The committee, in its report, places itself on record as favoring the governor's proposed project as the only logical means of remedying the present condition, adding that other schemes submitted were not deemed feasible.
