

Great Kamehameha Canoe Will Be Re-launched Today

As a symbol of the new era of development of surfing activities among the members of the Outrigger Canoe Club, the big Kamehameha canoe will be re-launched from the beach in front of the club this afternoon.

Members of the club are concentrating their efforts on a revival of surfing sports. With plenty of canoes for parties on the beach, the two women's organizations and the club are working in harmony for the new movement.

Officers and members will make brief addresses at the launching ceremonies this afternoon as the one great historic canoe in the Islands is prepared for its dip in the sea again, after a century of rest on shore.
