

Kamehameha Canoe May Be Used Soon By Sailing Parties

The Kamehameha canoe, which was launched with such ceremony on the Fourth of July, will probably be turned into a sailing canoe before long, say the boys who are taking care of it at the Outrigger Club.

"It is a first-class sailing boat," said Franklin Richardson, "and I believe that 'Dad' Center will put the big sail on it after everybody has had an opportunity to ride in it."

The canoe is one of the easiest riding of the canoes on the beach although it does require two or three men to steer it. The captain of the club, "Dad" Center, has taken it out several times lately when the surf has been good. Members of the club, all anxious to have a ride in the boat, are being taken out in parties of ten and twelve and will continue to have the opportunity until the sail is put up.
