

# WOMAN'S AUXILIARY DONATES \$300 FOR BUILDING OF RAFT

---

Evidence of a new spirit of cooperation which is arising between the men's department and the women's auxiliary of the Outrigger Club comes in the announcement that the women have appropriated \$300 to construct a second raft, to be placed half way out to the diving stand along the life rope. This appropriation was made following the campaign started among the men of the club to build the other raft beyond the diving stand.

That this act of the women's auxiliary marks the beginning of a new cooperation between the two departments of the club is the belief of many members of the club. In expressing his appreciation for the act of the women of the club, Harry B. Campbell, president of the Outrigger Club, said yesterday that he looked for an end of past differences in a very short time.
