

# HALLOWE'EN PARTY IS PLANNED BY WOMEN

---

A Hallowe'en party for Wednesday evening, October 31, is planned for the enlisted men by the Women's Auxiliary of the Outrigger Club. The affair will be given at the club house at Waikiki, and will be restricted to 100 men, as more cannot be accommodated on the dancing floor.

This was one of the features brought out in the meeting of the women's war council yesterday morning. A canteen at the Army and Navy Y. M. C. A. after its formal opening in November is also planned by the women. The different organizations affiliated in the council will each furnish the canteen for one day. All the foods sold will be home-cooked, and all will be in keeping with the food conservation campaign.

Group singing will be worked out a little later by a special committee of the council. A number of smaller entertainments are being planned by the different members, individually or in organizations, for which no dates have been set as yet.
