

OUTRIGGER CLUB WILL VOLLEYBALL

Waikiki Beach Athletes To Help United War Work Campaign Week On Sunday

By "Dad" CENTER

Volleyball at Outrigger Canoe Club court Sunday afternoon at two-thirty, November 17, 1918.

The best three out of five games.

Junior Members (boys under seventeen) vs. Business Men (who have never played in a league match before).

The Best Married Men's Team vs. The Best Single Men's Team of the Club. This is for the championship of the club. The single men hold the title at present.

Hui Malihini (those not born in the Islands) vs. Hui Kamaaina (those born in the Islands—taro pounders, in other words). The Taro Pounders hold the championship title at present.

This program follows the suggestion of The Advertiser that the Outrigger Canoe Club, as well as other athletic organizations, do something to help wind up successfully the United War Work campaign week now with us.

Court In Fine Shape

The club's volleyball court has been put in fine shape, and with these three matches on Sunday, which will be hotly fought from start to finish, there should be something doing. Men and women, boys and girls in bathing suits will not be barred from the bleachers and all are welcome to rubber as much as they please.

The Junior Members and the Business Men have taken a keen interest in the game this year. Out of this game there will be new material developed which will materially help and benefit the bright future of the club.

The second match, from the looks of things, will be the hottest fought of all three and the keenest ever contested on the court, as this year the Married Men's Team will be considerably stronger than that of last year. Now, just look who they've got in their line-up: "Cannon Ball" Johnson, Fred Bailey, Percy Nottage, Westgate, Dease, Mooney, Clutterbuck, Wickman, Coulter and still others from among who many stars may be picked. This looks like a sure thing. The Single Men's Team won't have an easy time with their opponents this year.

Auwe, Poi Pounders

In the third and final match of the afternoon the Poi Pounders Team will surely bow down under a good lacing this year. With "Mouse" Smith tying himself up in all kinds of knots, that will make any old sailor turn white trying to get next to them, "Skyscraper" Johnson with his smoky curves, Bailey, Nottage, Harvey, Decker, Dickson, and a "raft" of others to pick from there is very little hope for the Islanders.

Instructions have been sent out to all players to turn out every evening for real practise work. Those failing to do so will incur fearful penalties and the displeasure of a sport-loving community.
