

# Outrigger Grid Squad Is Hard at Work Now

## Will Be Ready for Practise Games Soon

The Outrigger Canoe club football team, which is practising hard in anticipation of the coming season, is composed mainly of veterans who have seen a good deal of gridiron service in and around Honolulu during the past 11 or 12 years. The club will be ready for practise games in two weeks. It remains to be seen, however, whether age has had any effect on the playing ability of some of the old-timers. From the way the boys are turning out, falling on the ball, punting and going through all the necessary preliminary stunts, it would appear that age will not interfere one bit with the above mentioned veterans. Following is a list of the players, years of gridiron service, etc.:

### The List

**Capt. Bill Inman:** Started playing 1908. Played continuously up to 1917. One year as fullback on Punahou Prep team; four years on Punahou Academy team. Captain of the school team during his last year, 1913. Played both at tackle and fullback.

**Bill Paty:** Paty is a product of Punahou, where he commenced his football career, somewhere around 1907 or '08. Bill always played on the line at tackle. He was captain of the Punahou team of 1911.

**George McInerny:** Mac played his first game of football for Punahou in 1912. He has always been at the center position, and is out for the same job this year.

**Herbert McInerny:** Mac played on the St. Mary's team of Oakland for a couple of years, where he made a good showing on the line.

**Pat O'Sullivan** has been playing a number of years on the various town teams, and last season played with the 1st Hawaiian Infantry team, which won the football championship of the territory.

**Frank Rodrigues** is a youngster who has had but three or four years' ex-

perience, but who plays the end position like a veteran.

**Gilbert Canario, Tom Singlehurst, Bill Thompson, D. Brown, G. Quintal, Tom Cockett, S. Blake, Sonny Hart, Dave Kahanamoku and Alex. Cleghorn** are all players who have had more or less experience and ought to be valuable in their various positions.

**Herman von Holt, former Yale line-man,** will be out in togs before the season opens. Von Holt played all last season with the A. E. F. in France and ought to have little difficulty in getting into shape for the coming season.

**Captain Inman** has secured the services of "Skinner" Davis to assist him in getting the Outrigger club in shape, and as "Skinner" knows the game from A to Z, he will no doubt be a great help to the club.

Anyone desiring to get in touch with Captain Inman for the purpose of arranging a game should telephone 2241.

## OFFICIAL BAND IS HEARD IN EXCEPTIONALLY ATTRACTIVE CONCERT

A combination of palm trees, a brilliant half moon and Hawaiian music is hard to beat, and the combination seemed at its best last night at Kaplani park where the Hawaiian band gave an excellent concert near the public baths. The musicians were in particularly good form, and while there seemed to be a predominance of brass, it was not as noticeable as heretofore.

The guitar, violin and ukulele boys accompanying the women in the singing of real Hawaiian songs, played on the heart strings with harmonies that seemed to melt in the soft breezes. Whosoever is responsible for having taught the band the so-called jazz music, which apparently means nothing less than a sheer laziness in improvisation and composition, should be
