

A. A. U. FAILS TO GET GRID TEAMS TOGETHER

Efforts on the part of the Hawaiian branch of the A. A. U. to bring the major football teams together with the idea of forming a league were a dismal failure. After a discussion the meeting was adjourned at a point where it started. The Town Team opposed A. A. U. control or meddling in any form. Secretary Page of Schofield refused to join any league. Professor Crawford was willing to carry a team till after Thanksgiving but not much longer. Outrigger club men wanted to begin about Thanksgiving and finish New Year's.

Practically putting football on a professional basis, a schedule of fees for officials was tentatively adopted whereby referee and linesmen get \$10 each and the head linesman and field judges get \$5 each.
