

## Senior Game

(Special Star-Bulletin Correspondence.)

**OUTRIGGER CANOE CLUB, Wai-kiki Beach, Nov. 19.**—As a result of injuries sustained in Sunday's game with the 6th Aero Squadron, L. "Fat" Hart and Bill Hollinger of the Outrigger club are still on the disabled list. "Fat" Hart is out of the game for at least two or three weeks with a sprained knee, and although Bill Hollinger turned out for practise last night, his right shoulder is in such a condition that it is doubtful as to whether he will be able to play Saturday. The loss of these two sterling players will be sadly felt by the surf-riders, as both were aggressive players and their places will be hard to fill.

## No Special Train

In yesterday's sport columns it was stated that a special train would leave town at 1:15 Saturday for the Schofield game. This arrangement has fallen through and no excursion will be made. As there are two interscholastic games on the football card for Saturday in town, it was surmised that the majority of the fans would prefer to see the games in town rather than travel all the way to Schofield to witness a game. There will, however, be a large following of Outrigger boosters who will make the trip to Schofield in autos and be on hand to cheer the canoemen to a victory.

The Schofield Giants appear to be the favorites in the country game this coming week end, but Coach Inman and his squad of surf riders are determined that if there is going to be any scoring done at all, it won't be the Schofield bunch.
