

# Demonstrating Use of Pulmotor At Outrigger Club

---

Ronald Higgins and Mrs. Gilman  
Teaching Boys and Girls  
At the Beach

---

Interest in the pulmotor at the Outrigger has been revived and a number of the boys were practising with it last Saturday, thus refreshing their memories on the finer points of the machine.

Ronald Higgins demonstrated its use to a number of the boys who had not previously operated the machine. It is desired to have as many as possible ready to use it at a moment's notice, if occasion should require.

Mrs. Gilman also demonstrated for the girls, who showed quite as keen an interest in the work as the boys did. Miss Helen Martin was the first of the younger girls to qualify as an operator of the pulmotor.
