

AN EFFORT TO AROUSE SWIMMING INTEREST

Mrs. F. Leo, who is so deeply interested in all water sports, is aiming to arouse the proper interest in swimming. She hopes to have all of the younger members of the woman's auxiliary of the Outrigger Club take up swimming, not for the records they may make, but for the love of the good, clean sport it is.

Mrs. Leo is leaving no effort untried to bring this sport to the position it should have, and without doubt she will meet with the splendid success her energy demands. An announcement says:

"Gala, July 4th at Y. M. C. A. tank.

"Being interested in all forms of outdoor exercise the proceeds will be handed over to the Playground Summer schools. The principal object is to promote interest in aquatics among the members of the club and by affording club competition the younger members will not be tempted to go outside their own circles for competition. A very handsome annual trophy will be put up by the club to be competed for every year commencing this gala and goes to the member who scores the highest number of points in the following test:

"One hundred yards free style, diving, plunging, object diving, graceful swimming; 20 yards each side, breast and back strokes.

"Other items on the program will be 20 yards for girls under 10; 40 yards for members who have never competed before. Life saving exhibition, using the methods of the Royal Life Saving society, a work highly recommended by the Red Cross and now enthusiastically taken up in America. Obstacle race (instructive) team race and other fancy and scientific events.

"The meet will be open to members of the Women's Auxiliary and their gentlemen guests. All members interested please hand their names to chaperone at the club."
