

MEN'S TAILORS MAKING WOMEN'S BATHING SUITS

That women are buying bathing suits at the men's furnishing stores and then having them fitted upstairs by a man tailor so that they are absolutely skin tight, is one of the assertions made by the ladies of the Women's Auxiliary of the Outrigger Club, according to an official statement. They claim this is an infringement of their rule that women shall not wear men's bathing suits or suits of a similar cut.

A member of the committee overheard one remark by a purchaser of a bathing suit in a men's store, to the effect that she wanted the tightest suit possible so she might show her figure at Waikiki.
