## COUNTRY FISH CHOWDER, RIGHT WAY TO MAKE IT

How Y. W. C.A. Is Teaching Young Women of Hawaii to Cook Toothsome Dishes of All Kinds; Some Pretical Recipes

 gr Direct, V. & Experimental Wardon-TL, man and the second sec

"Unseen because our eyes were dim, "Unseen because our eyes were dim,

The Honolah housekeeper should have more such feeling of unufilized sympactical in these islands and the organ need in every generation for each coole such still more cooles. Music age and have once a week or once a such or much today and a little tomarter, as our fancy dictates, books, marter of the still still to marter it or wirely and well, were one of m or our whole fabric of human mitteese is in separaty.

Who knows how much of Hun atrorities can be laid at the door of too mach beer and boiled cabbage and over rating and not enough of simple, satisfring living!

Just now there are three classes coninter by Mrs. James Russell, all acbanimes and desirability of home propulations and desirability of home unified somewhat to suit the aceds of the individual members. One class different and the source of the source and the source of the source of the hashedor maid who caters for heread it breakfort, but the Threadby event superscriptation of them all.

This claim is known by the classifier al secretary as "the class in practical contery," and its aim is to teach in 10 lensons, as much as possible to 12 years women, working in groups of two, how to choose and buy and serve the ideal meal. One hour of each lessm is given over to lecture work by Mrs Rescal

This lecture is not a cut and dried driat but taking the receipes for a latt, explains the cost, methods of doming and hoying, distertie and therapents values and methods of coshing und string. The last hour the recipes in workel out by the students with hill all technique as nearly approach high the ideal as may be

The diamer is taken up by courses wind by cally the first lesson on March 41 was soups. The incoming class found written on the blackhoard recipers for first chowder, vegetable chowder and form of tomate source. The prices with added after the class discussed have found in the eity market. In the first hour's talk many points were trught out.

The main idea of the lessons was to be humans given by the height of the second second second second second height products, as much as pertension of the second second second height products and the second second height products and the second second 194 but diministe any of the waridow 194 but diministe 1

Two associated of fish (40 cents), four type of wards of fish (40 cents), four two pointees (asso cent), one slow of associate fish pork (10 cents), two support of milk (arven cents), three tablespoons four, sait and perper to taste-and the pas to each is all with (five cents). Tabl pass fits of the first cents).

It serves from four to aix people. It discussions the rective it was noted for while Hawaian fish prices are the while as compared with fish prices alor by the twy are made still higher here the discussion of selfthe discussion. It behaviors the could be to here to clean her fish. Cleanber to here to clean her fish. Cleanter and the self-there are the self-there are the points emphasized.

We holding the fish two the tail under White water the luft exception to the tail the head to remove the scalar, the the head to remove the scalar, the tail the scalar water the scalar state of the scalar of the intervent the fish aligning from your M. Shif from your to move to to wont the scalar most the cavity. Make fillers the scalar most the cavity of the scalar scalar the scalar most the cavity. Make fillers the scalar most the cavity of the scalar scalar the scalar scalar scalar scalar scalar scalar the scalar scalar scalar scalar scalar scalar the scalar one the skin is removed in the sam

To remove strong fishy alow from vessels in which fish has been cooked, wash in the nearly way, then fill with learn and being to a beil, find the strength of the strength of

which half here, treated as follows: which half here, treated as follows: if the place ever a law fore as for fretion of the second second second second was free added, eached shorty for a was free added, eached shorty for a following the second second second second proves the second second second second regions in sub-second second second second regions in sub-second second second second regions in the second second second second regions of the second second second second regions in the second se

## Vegetable Chowder
