

# SOCCER MEN GATHER IN SESSION TONIGHT

---

Plans for the soccer season will be laid tonight at a general meeting in the British club rooms. The question of the number of teams in the circuit, the playing field, the officials and other matters of vital interest will be discussed and settled.

The game this season will probably be played at Moilili field, although the league has several other parks in view. It is felt, however, that if the game is to be popularized at all, it must be put on at a field that is close to town and one where the fans will find easy to reach.

To date there are five teams in sight. The three that are sure are the Healanis, Outriggers and Rangers. The Palama Settlement is hoping to put in a team and Benny Clarke will be on hand tonight to give details. The army is also planning to put in a team and a representative is expected to be present to give details.
