

# Outrigger Club Proposes \$50,000 New Building Plans

(Continued from Page 1)

will be constructed on the beach of the Diamond Head side of the present canoe sheds. The new building will be equipped with low canoe sheds on the first floor and a small kitchen. The second story will be designed with a lounge, card and game rooms, a dance floor and a larger kitchen.

A second building, which will include lockers, dressing rooms and a complete gymnasium, will be constructed near the Royal Hawaiian hotel grounds slightly to the rear of the beach. Offices of the manager will also be located in this building.

In the center of the grounds, in approximately the same location, new volleyball, handball, badminton and squash courts will be erected, the directors said. A parking lot will face the Kala-kaua side of the property, which may eventually be fronted by beach stores similar to those in the Waikiki theater shopping district.

Action on the transfer of the property will be taken as soon as the Territorial surveyor's report has been made on the present title of the Uluniu club. Application for a land court title was filed by the club last May.
