

# The Outrigger Club

The Outrigger club is an institution. It is a natural outgrowth of recreational needs at Waikiki Beach. It has served the people of the Islands in its own unique way over a period of years.

And like other going concerns the time has come for a bit of modernizing, some rebuilding and expansion. Plans for a \$50,000 building program will be hailed by club members and the public alike.

Swimming, canoeing, surf-riding are vital elements in the life of the community. It is necessarily so, in that we are closely associated with ocean shores. The Outrigger club sponsors these elements. The club's expansion, therefore, is not only a mirror of community growth, but a definite reflection of community participation in these recreational endeavors.
