

Outrigger Club Officers Named

(Continued from Page 1)

officers on the board of directors.

Recent announcement of the expenditure of \$50,000 in the enlargement of Outrigger beach property to 210 feet and the construction of a modern clubhouse and gymnasium will occupy the attention of the new directors during the 1937-38 term.

Elaborate plans for the clubhouse include proposed lounges, gaming rooms, a dance floor, two kitchens, canoe sheds for the organization's new home on Waikiki beach frontage.

Arrangements for the Muniu club to exchange properties to enable the club to have a wider beach frontage have been made but a title search must first be made to assure a clear title of the property to the Outrigger club.

Volley ball courts will be constructed in the rear of the new building according to present plans. A gymnasium housing showers, lockers and the manager's office will be placed in a separate building, the plans stipulate.
