

Someone said that koa logs used for the building of outrigger canoes may be shipped from the other islands to Honolulu by the Inter-Island Steam Navigation Co. free of charge.

If such be the case, then Leslie A. Hicks, president of the Outrigger Canoe club, may see fit to purchase some logs and have "Toots" Minvielle, master canoe builder, fix new canoes for the boys to play with.

We're sure the boys would be delighted, if Mr. Hicks could see his way clear.
