

# What The Outrigger Club Means

---

In order to enlarge the Outrigger Canoe club and insure its continued usefulness its members will shortly be called to vote on a bond issue of \$90,000. Proceeds will be devoted to construction of adequate quarters on a new site to permit expanded activities and the club's perpetuation of the most typical sports of Hawaii.

The community cannot but admire the splendid spirit of this organization. Other sports are fostered and often generously subsidized, some even by governmental agencies, but the Outrigger club by proposing a bond issue indicates its desire to pay its own way.

It is the headquarters of swimming, surfing and canoeing, recreations invaluable to youth that have attracted thousands of visitors to these shores and added immeasurably to Hawaii's fame. Moreover it performs other functions of importance to Honolulu, including the meeting of ships and the entertainment of distinguished visitors.

That it deserves the generous support of the community is proved by the record of the club. With new and better facilities it will be enabled to carry on even better than in the past.
