

## **PATTERN FOR VOLUNTARY FOOD SAVING**

Practical cooperation in food saving has been put into effect by two of Honolulu's large semi-public eating places.

At the Commercial Club and at the Honolulu YMCA, instructions have been issued the managers, by the directors, that consumption of butter must be cut 20 per cent, and consumption of canned fruits and vegetables by a third.

This is in line with the program of the territorial food control office, which in turn is based on recent findings and recommendations by the national food administration.

It is to be hoped that other large clubs and private or semi-public restaurants, such as the Pacific, the Oahu Country and the Outrigger club, will adopt the same practices.
